TYPE GAP CONCEPTS

Fourteen new evolution lines and 34 species: five three-stage lines, one honor split and eight two-stage lines, aimed at the types and combinations the roster is missing or thin on. Every move and ability named here already exists in the game.

The target look: detailed pixel-art battle sprites with crisp dark outlines, cel shading and a 3/4 view facing left (current roster, above).

A family counts once for each type any of its stages has. "Catchable" leaves out families that are only legendary or mythical. Source: `packages/content/src/data/species.ts`, 145 species in 74 families, counted 26 October 2026.

THINNEST TODAY

Cosmic is nearly legendary-only (Hollowolf is the one catchable line). **Normal** pairs only with Grass and Ice. **Bug** has no pure line and only 4 families. **Ice** has 4 catchable families and no pure line.

AFTER THIS SET

Every type reaches at least 6 families. **Normal**, **Bug** and **Cosmic** are still lowest at 6, and **Electric** (8) is the only type this set adds nothing to, so those are the next candidates. Pure Flying and pure Steel are still missing.

FILLS Normal Flying

PUFFINCH TO GUSTLING TO GALEFORTH

Normal is paired with only Grass and Ice (16 of 18 combos missing), and Normal/Flying, the classic first-route bird, does not exist. As a three-stage line it grows with the player from the first route to the league.

STAGE 1 — EVOLVES AT 14

PUFFINCH

Normal · Flying

Speed · Common

A plump, round field-finch chick with cream and tan feathers, a big fluffy chest puff, stubby wings and a long two-strand ribbon tail it trips over. Wide cheerful eyes, little orange feet.

STAGE 2 — EVOLVES AT 34

GUSTLING

Normal · Flying

Speed · Uncommon

A lean, scrappy young finch that has outgrown its fluff, with a short spiky crest, wings a size too big and the first rust-red feathers coming in at the neck. Its ribbon tail is now long enough to whip.

STAGE 3 — FINAL

GALEFORTH

Normal · Flying

Physical Attacker · Rare

A proud, swift hawk with a swept-back windblown crest, tan and white plumage and a rust-red neck ruff that flows like a scarf. Wings half spread, the forked ribbon tail streaming behind it.

CORVLET TO RAVENMOURNE OR AUGURVANE

Dark and Flying have never been paired, and Psychic/Flying is missing too. Corvlet uses the honor ledger (like Dustcub): a trainer who fights fair raises an oracle, one who fights dirty raises a thief.

STAGE 1 — SPLITS AT 30 BY HONOR

CORVLET

Dark · Flying

Speed · Common

A scruffy crow chick under an oversized hood of black feathers that hides everything but one bright eye. It always carries a stolen shiny trinket in its beak.

STAGE 2 · LOW HONOR — FINAL

RAVENMOURNE

Dark · Flying

Physical Attacker · Uncommon

A tall, tattered raven wrapped in a cloak of black feathers, its long beak shaped like a plague-doctor mask. A ring of stolen trinkets hangs around its neck and its eyes glint violet.

STAGE 2 · HIGH HONOR — FINAL

AUGURVANE

Psychic · Flying

Special Attacker · Uncommon

A sleek raven whose black feathers fade to bone-white at the tips, each inscribed with a faint rune. A violet gem glows on its brow like a third eye, and it carries a small lit lantern in its talons.

SPROUTGRUB TO LEAFCOON TO MANTLEAF

Bug has only 4 families and no pure Bug at all. A fast-evolving three-stage bug (larva, cocoon, mantis) adds a pure Bug first stage and the missing Bug/Grass combo, the natural forest bug.

STAGE 1 — EVOLVES AT 10

SPROUTGRUB

Bug

Physical Defender · Common

A soft green-brown caterpillar curled up in a rolled leaf like a sleeping bag, only its sleepy face and tiny stubby legs poking out. A single sprout grows from its head.

WHAT IT TAKES TO SHIP THEM

- **Sprite atlas budget.** The creature atlases have about 0.35 MB left under the 44 MiB ceiling, less than one dense sprite. 34 species will need a ceiling raise or a lower quality rung, so pick that first. Gift and quest species with no spawn zone (Shalewing as a fossil revival) do not count against a zone's atlas cap.

- **Spawn tables.** The sprite planner reads spawns from `.design/roster-coverage.md` §6 and §7, so add the zones there before building. Hollow Road is full (14-species cap), so Corvlet uses Vesperveil instead.

- **An early Cosmic move.** Cosmic's weakest attack is Starfall (90 power). Twinklit and Meteorb need a low-power Cosmic STAB move added through `.design/additions/moves.js`, for example a 40-power "Stardust".

- **Shiny variants.** Each new family needs `pnpm --filter @ewa/sprite-pipeline shiny` after its thumbs exist. Check the contact sheet for white, grey and near-black bodies (Snowlet, Corvlet, Craterhulk).

- **Data.** Rows go in `.design/additions/species.js` (dex continues after 145), then `pnpm --filter @ewa/content run migrate` and the content gate `pnpm --filter @ewa/content run validate`.

- **Balance.** The stats here are a starting point next to similar lines: first stages total 218 to 268, middle stages 240 to 350 and finals 370 to 468. Leafcoon is a deliberately weak cocoon; Mesadrake (468) is the pseudo-legendary and Petraptor the other late-game prize.

- **The honor split.** Corvlet uses `splitEvolvesInto` with `condition: "honor"`, the same mechanic as Dustcub, so it needs no new code. Twinklit and Tuskling change type across stages, which plain level evolution already supports.

- **Concept art.** Not generated for this PDF because the image service's quota ran out. The appendix has a ready prompt for each species.

ART PROMPTS

One front-sprite prompt per species, in the format of `.design/imagegen/*.jsonl`. The same prompts are saved to `.design/imagegen/type-gap-concepts.jsonl`. Back sprites follow the same text with a 3/4 rear view.

PUFFINCH puffinch-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Puffinch, a Normal Flying Ewamon, matching the existing Ewamon roster style
Subject: A plump, round field-finch chick with cream and tan feathers, a big fluffy chest puff, stubby wings and a long two-strand ribbon tail it trips over. Wide cheerful eyes, little orange feet.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: cream, tan, orange feet, slate outline
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

GUSTLING gustling-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Gustling, a Normal Flying Ewamon, matching the existing Ewamon roster style
Subject: A lean, scrappy young finch that has outgrown its fluff, with a short spiky crest, wings a size too big and the first rust-red feathers coming in at the neck. Its ribbon tail is now long enough to whip.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: dusty cream, tan, rust, slate outline
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

GALEFORTH galeforth-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Galeforth, a Normal Flying Ewamon, matching the existing Ewamon roster style
Subject: A proud, swift hawk with a swept-back windblown crest, tan and white plumage and a rust-red neck ruff that flows like a scarf. Wings half spread, the forked ribbon tail streaming behind it.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: white, tan, rust scarf, slate outline
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

CORVLET corvlet-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Corvlet, a Dark Flying Ewamon, matching the existing Ewamon roster style
Subject: A scruffy crow chick under an oversized hood of black feathers that hides everything but one bright eye. It always carries a stolen shiny trinket in its beak.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: ink black, night purple, violet glint, gold trinket
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

RAVENMOURNE ravenmourne-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Ravenmourne, a Dark Flying Ewamon, matching the existing Ewamon roster style
Subject: A tall, tattered raven wrapped in a cloak of black feathers, its long beak shaped like a plague-doctor mask. A ring of stolen trinkets hangs around its neck and its eyes glint violet.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: ink black, night purple, violet eyes, gold trinkets
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

AUGURVANE augurvane-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Augurvane, a Psychic Flying Ewamon, matching the existing Ewamon roster style
Subject: A sleek raven whose black feathers fade to bone-white at the tips, each inscribed with a faint rune. A violet gem glows on its brow like a third eye, and it carries a small lit lantern in its talons.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: ink black, bone white, psychic glow, lantern gold
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

SPROUTGRUB sproutgrub-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Sproutgrub, a Bug Ewamon, matching the existing Ewamon roster style
Subject: A soft green-brown caterpillar curled up in a rolled leaf like a sleeping bag, only its sleepy face and tiny stubby legs poking out. A single sprout grows from its head.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: leaf green, pale shoot, bark brown, yellow spots
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

LEAFCOON leafcoon-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Leafcoon, a Bug Grass Ewamon, matching the existing Ewamon roster style
Subject: A cocoon of tightly wound leaves stitched with silk, hanging from a twig. Two narrow eyes peer out of a gap, and blade-shaped leaf tips already poke through the wrapping, a hint of what is inside.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: wound leaf, silk, twig brown, eye glow
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

MANTLEAF mantleaf-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Mantleaf, a Bug Grass Ewamon, matching the existing Ewamon roster style
Subject: A poised praying mantis whose forearms are serrated leaf blades. A petal crest frames its head and its folded wings carry a moss pattern. Stance low and ready to strike.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: leaf green, deep moss, petal crest, yellow eyes
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

SNOWLET snowlet-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Snowlet, a Ice Flying Ewamon, matching the existing Ewamon roster style
Subject: A perfectly round snowball of frost fluff with only big amber eyes and a tiny beak showing. Two little wing tips stick out of the sides.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: snow white, frost blue, navy outline, amber eyes
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

HOARFROWL hoarfrowl-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Hoarfrowl, a Ice Flying Ewamon, matching the existing Ewamon roster style
Subject: A large snowy owl whose wing tips are long icicle feathers. A ring of frost circles one eye like a monocle and its breath hangs as fog. Calm, scholarly stare.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: snow white, frost blue, navy outline, amber eyes
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

TUSKLING tuskling-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Tuskling, a Ice Ewamon, matching the existing Ewamon roster style
Subject: A woolly calf with shaggy brown fur, a cap of fresh snow on its head and two tiny frosted tusk nubs. Short sturdy legs and a curious, trunk-up pose.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: woolly brown, snow cap, frost tusks, dark outline
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

SHAGTUSK shagtusk-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Shagtusk, a Ice Ground Ewamon, matching the existing Ewamon roster style
Subject: A stocky young mammoth with a thick shaggy coat caked in frozen mud, short straight tusks capped in ice and a stubborn lowered head, ready to charge. Thin sheets of frost are forming along its spine.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: woolly brown, frozen mud, frost, dark outline
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

RIMETUSK rimetusk-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Rimetusk, a Ice Ground Ewamon, matching the existing Ewamon roster style
Subject: A towering mammoth with slabs of permafrost grown onto its back like a small glacier, huge curled tusks rimmed with ice and frozen clods of earth tangled in its fur.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: woolly brown, glacier white, ice blue, frozen earth
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

SCORPIT scorpit-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Scorpit, a Poison Ground Ewamon, matching the existing Ewamon roster style
Subject: A tiny sand-coloured scorpion with a stinger far too big for its body that it drags behind it. Little pincers held up proudly.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: sand, dune brown, venom purple, venom glow
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

DUNEVENOM dunevenom-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Dunevenom, a Poison Ground Ewamon, matching the existing Ewamon roster style
Subject: An armoured desert scorpion whose plates are layered like sandstone strata. Its venom bulb glows purple and drips onto the sand, and its pincers are wide as shovels.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: sandstone, strata brown, venom purple, venom glow
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

SHALEWING shalewing-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Shalewing, a Rock Flying Ewamon, matching the existing Ewamon roster style
Subject: A hatchling pterosaur still half inside a cracked shale egg, wearing the top half of the shell like a helmet. Thin membrane wings and a big curious beak.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: slate, shale tan, amber, dark outline
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

PETRAPTOR petraptor-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Petraptor, a Rock Flying Ewamon, matching the existing Ewamon roster style
Subject: A large pterosaur whose wings are layered slate plates, with ridges of fossil bone along its back and a polished amber gem set into its long crest.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: slate, fossil bone, amber crest, dark outline
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

TWINKLIT twinklit-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Twinklit, a Cosmic Ewamon, matching the existing Ewamon roster style
Subject: A small five-pointed star creature with a sleepy smiling face and stubby star-point limbs, trailing a thin line of glitter wherever it floats.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: cosmic teal, starlight, night blue, pink sparkle
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

LUMISTAR lumistar-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Lumistar, a Cosmic Ewamon, matching the existing Ewamon roster style
Subject: A larger, brighter star with long elegant points it uses like arms, a faint ring orbiting it like a tiny planet and a calm glowing face. It leaves a short comet trail when it moves.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: cosmic teal, starlight, night blue, ring violet
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

STELLARIA stellaria-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Stellaria, a Cosmic Fairy Ewamon, matching the existing Ewamon roster style
Subject: A graceful floating dancer whose flowing gown is a nebula veil dotted with a constellation. A crown of small stars circles its head and its feet never touch the ground.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: cosmic teal, nebula blue, fairy pink, starlight
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

METEORB meteorb-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Meteorb, a Cosmic Rock Ewamon, matching the existing Ewamon roster style
Subject: A small cratered meteorite that hovers a little off the ground, a teal glow leaking from the cracks in its surface and two pebble eyes peering out.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: meteor grey, crater stone, core glow, hot rim
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

CRATERHULK craterhulk-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Craterhulk, a Cosmic Rock Ewamon, matching the existing Ewamon roster style
Subject: A hulking golem of meteor rock. Its chest is a crater with a glowing star core inside, its knuckles still glow red-hot from entry, and small debris orbits its shoulders.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: meteor grey, crater stone, star core, red-hot rim
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

GRAVELWISP gravelwisp-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Gravelwisp, a Ghost Ewamon, matching the existing Ewamon roster style
Subject: A little wisp wrapped in a loose burial cloth, two glowing eyes in the dark under the hood and a thin stream of sand trickling from its hem as it drifts.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: linen sand, ghost violet, shadow, gold eyes
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

TOMBDUNE tombdune-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Tombdune, a Ghost Ground Ewamon, matching the existing Ewamon roster style
Subject: A walking sandstone sarcophagus. The lid is cracked open and a sand-ghost spills out of it, with glowing eyes behind a carved mask and arms of pouring sand.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: sandstone, ghost violet, shadow, gold glyphs
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

GNASHFIN gnashfin-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Gnashfin, a Water Dark Ewamon, matching the existing Ewamon roster style
Subject: A shark pup with a jaw much too big for its head, a scar across one eye and fins as ragged as torn sails. Always grinning.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: deep navy, sea blue, dark scales, white teeth
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

DREADMAW dreadmaw-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Dreadmaw, a Water Dark Ewamon, matching the existing Ewamon roster style
Subject: A big pirate-themed shark with ink-black hide, a jagged dorsal fin like a broken hull plank and a rusted anchor chain wrapped around its tail. Rows of white teeth in a wide grin.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: deep navy, ink hide, rust chain, white teeth
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

KINDLEGRUB kindlegrub-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Kindlegrub, a Fire Bug Ewamon, matching the existing Ewamon roster style
Subject: A soot-black grub with glowing ember stripes between its segments, carrying a smouldering coal on its back like a backpack.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: soot black, ember, flame yellow, ash grey
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

PYREMOTH pyremoth-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Pyremoth, a Fire Bug Ewamon, matching the existing Ewamon roster style
Subject: A moth whose wings are living flame with eye-spots like glowing embers. Its body is fuzzy and ash-grey, and it sheds a drift of glowing scales as it flies.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: ash fuzz, flame wings, ember spots, soot outline
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

JOEYJAB joeyjab-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Joeyjab, a Normal Fighting Ewamon, matching the existing Ewamon roster style
Subject: A young kangaroo with oversized red boxing-glove paws and a sweatband on its head, bouncing on its toes in a fighter's stance.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: tan fur, cream belly, glove red, sweatband
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

ROOBRAWLER roobrawler-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Roobrawler, a Normal Fighting Ewamon, matching the existing Ewamon roster style
Subject: A muscular kangaroo boxer with a gold champion belt and a taped tail. A tiny joey with miniature gloves peeks out of its pouch, copying every move.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: tan fur, cream belly, glove red, belt gold
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

BURROWYRM burrowyrm-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Burrowyrm, a Dragon Ground Ewamon, matching the existing Ewamon roster style
Subject: A legless young sand-wyrm peeking out of its burrow, with a spade-shaped snout for digging, small horn nubs and bright curious eyes.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: canyon red, sand, dragon violet, dark outline
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

DUNESCALE dunescale-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Dunescale, a Dragon Ground Ewamon, matching the existing Ewamon roster style
Subject: A young sand-dragon that has grown short, powerful legs. Its back is covered in thick sandstone plates, its spade snout has hardened into a digging horn, and stubby frills flare when it is angry.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: canyon red, sand, dragon violet, dark outline
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
```

MESADRAKE mesadrake-front.png

```
Use case: stylized-concept
Asset type: monster battle sprite
Primary request: a detailed pixel art battle sprite for Mesadrake, a Dragon Ground Ewamon, matching the existing Ewamon roster style
Subject: A wingless desert dragon whose back is layered red mesa rock. Spade-shaped horns, wide frills that whip up a swirl of sand, and violet scales showing between the rock plates.
Style/medium: detailed modern pixel art, crisp dark outline, cel shading, limited palette, readable silhouette
Composition/framing: front battle sprite in 3/4 angle facing slightly left, full body, centered, generous padding
Background: perfectly flat solid chroma key magenta background #ff00ff only, no gradient, no shadow
Color palette: mesa red, sand, violet scales, dark outline
Constraints: do not use magenta in the creature, no text, no watermark, one creature only
